El Puente "The Bridge"

LifeWorks El Puente Program builds a bridge between at-risk and gang-affiliated youth and their family and the community. El Puente provides bilingual services to help youth to develop self-esteem by teaching them personal and interpersonal skills and cultivating their sense of family and community. El Puente assists youth in developing lifelong relationships with their family, their school, and the community...relationships that will help them discover their own unique value.

Our Services

◆ Schools...

El Puente offers an eight week intensive program of two hour classes in a management, conflict resolution, and positive choice making. We provide gang intervention to Spanish and English speaking youth. El Puente groups are able to come to your campus location.

◆ Parent Education...

We offer the parents of at-risk and gang-affiliated youth the tools for change and help provide enduring positive adult relationships that enable the youth to acquire developmental assets, internalize interpersonal skills, and begin becoming an important part of our society.

◆ Families...

We provide intensive counseling services to at-risk and gang affiliated children, adolescents, and their families for the purpose of early intervention and prevention. These services are provided in the home or at the LifeWorks site

To Participate: Contact Program Director Rosa Toral, MFT
